Academic Scientific Journals

# Academic Search Complete

## Content Includes

- Nearly 6,600 active full-text journals and magazines
- Nearly 6,000 active full-text peer-reviewed journals
- More than 4,000 active full-text peer-reviewed journals with no embargo
- Nearly 4,000 active full-text journals indexed in Web of Science or Scopus

## Subjects Include

- Animal science
- Anthropology
- Astronomy
- Biology
- Chemistry
- Engineering
- Ethnic and multicultural studies
- General science
- Geography
- Geology
- Law
- Mathematics
- Music
- Pharmaceutical sciences
- Physics
- Psychology
- Religion and philosophy
- Science and technology
- Veterinary science
- Women's studies
- Zoology

# Business Source Complete

## Content Includes

- More than 2,100 active full-text journals and magazines
- Nearly 1,300 active full-text peer-reviewed journals
- Nearly 770 active full-text peer-reviewed journals with no embargo
- More than 840 active full-text journals indexed in Web of Science or Scopus

## Superior Business Coverage

When *Business Source Complete* is combined with the comprehensive database *Regional Business News Plus*, the result is a package that delivers more key content to academic researchers than any other business database available.

## Topical Video Content

*Business Source Complete* offers access to video content from the Associated Press, the world's leading news agency. Videos relevant to the search terms will appear in a carousel in the result list. With footage from 1930 to the present and updated monthly, this collection of more than 67,000 videos covers a wide variety of topics.

## Company View

The Company View component of *Business Source Complete* provides detailed company information for more than 1.1 million of the world's largest public and private companies. Data includes financials, subsidiaries, products, employees, industry information and more.

With the Company View Content in Context feature, users gain a broader and deeper approach to investigating a company through contextual access to related information including:

- Case studies
- Industry profiles
- SWOT analyses
- Books/Monographs
- Articles from business journals, magazines and trade publications
- Market research reports
- Product reviews
- News articles
- Country reports

# Environment Complete

## Content Includes

- More than 1,200 full-text journals and monographs
- Nearly 4 million records
- Indexing for more than 2,000 domestic and international journals dating back more than 100 years
- More than 180 full-text monographs

*“Environment Complete is no doubt the **go-to resource**. Offering coverage for all areas of environmental studies programs, it has been of great value supporting specific courses on environmental ethics, environment and the human condition, and **energy and sustainability**.”*

**Library Journal**

**Library Journal** is an American trade publication for librarians. It was founded in 1876 by Melvil Dewey.

## Subjects Include

- Agriculture
- Ecosystem ecology
- Energy
- Environmental law
- Environmental technology
- Geography
- Marine and freshwater science
- Natural resources
- Pollution and waste management
- Public policy
- Renewable energy sources
- Social impacts
- Urban planning

## ➤ Arab World Research Source: Al Masdar

### Content Includes

- Nearly 160 full-text titles in Arabic
- More than 440 full-text resources, including more than 300 academic journals
- Coverage from 1972 to the present
- More than 60 full-text country reports

*“Libraries supporting advanced research in Arab and Middle Eastern studies will want to subscribe to this helpful and usable database...”*

### Choice Magazine

**Choice** is a publishing unit of the [Association of College and Research Libraries](#) (ACRL).

### Subjects Include

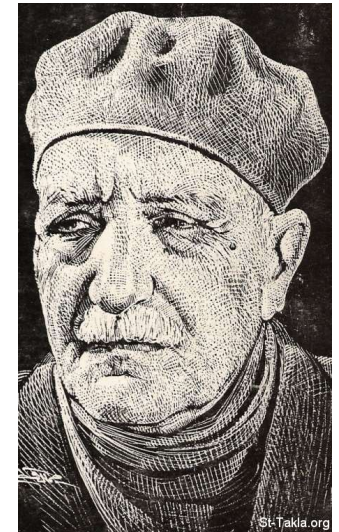

- Art
- Business
- Economics
- Education
- Engineering
- Health
- History
- Humanities
- Law
- Politics
- Religion
- Science
- Sociology
- Technology

## eBook Arabic Collection: Al-Kotob

Serving the countries and territories of the Arabic League and beyond.

This Middle Eastern collection of nearly **5,000 Arabic e-books** covers a broad range of academic subjects, including:

- ✓ Art
- ✓ Biography
- ✓ Business
- ✓ Child development
- ✓ Education
- ✓ Medicine
- ✓ Social sciences
- ✓ Humanities
- ✓ Islamic studies
- ✓ History
- ✓ Law
- ✓ Music
- ✓ Religion
- ✓ political science
- ✓ Technology
- ✓ Engineering and more.

The collection includes content from noteworthy publishers as well as award-winning authors including **Abbas Mahmoud El Akkad** and others.

## Energy & Power Source

### Content Includes

- More than 400 full-text journals
- Cover-to-cover indexing for more than 930 publications
- Hundreds of full-text energy-focused industry and market research reports

### Subjects Include

- Coal
- Electric power
- Natural gas
- Nuclear power
- Petroleum
- Renewable energy (including hydroelectric power, wind power, solar power and alternative fuels)

Comprehensive ***Energy & Power Source*** offers quick access to critical information — including complete full text with ***images, tables, charts*** and other graphical content from **many key titles**.

With *Energy & Power Source*, you can access a wide range of content, including journals, magazines, books, monographs, trade publications and other valuable sources. In addition, it features benchmarks and best practices from a worldwide range of top industry players.

This resource is ideal for professionals involved at any level within the energy and power industries, including distribution, exploration, extraction, marketing, processing, production, research and selling.

## Welcome.

The **Iraq Virtual Science Library - IVSL** provides free, full-text access to thousands of scientific journals from major publishers as well as a large collection of on-line educational materials.

**Important Note:** We are facing temporary access problems to the content of the following publishers:

- ACS American Chemical Society
- Elsevier Science Direct

We are working to solve this issue.  
Thank you for your understanding and patience.

## Announcements

We are pleased to announce the new IVSL site. The new site will make it easier to register, renew your password, and search for resources. Please explore the new site and provide your feedback using the form linked at left.

**More than 34,000 E-Book has been added to IVSL resources from "Project Gutenberg".**

**Abstract:** This research questions how social media use affords new forms of organizing and collective engagement. The concept of connective action has been introduced to characterize such new forms of collective engagement in which actors coproduce and circulate content based upon an issue of mutual interest. Yet, how the use of social media actually affords connective action still needed to be investigated. Mixed methods analyses of microblogging use during the Gulf of Mexico oil spill bring insights onto this question and reveal in particular how multiple actors enacted emerging and interdependent roles with their distinct patterns of feature use. The findings allow us to elaborate upon the concept of connective affordances as collective level affordances actualized by actors

### The Effect of a **Data** Breach Announcement on Customer Behavior: Evidence from a Multichannel Retailer

#### Contents

Conceptual  
Background

Research  
Background

Effect of DBA on  
Customer  
Spending and  
Channel Migration

Role of Patronage  
in Customer  
Response to a  
DBA

In this study, the authors assess the effects of a **data** breach announcement (DBA) by a multichannel retailer on customer behavior. They exploit a natural experiment and use individual customer transaction **data** from the retailer to conduct a detailed and systematic empirical examination of the effects of a DBA on customer spending and channel migration behavior. To identify the effects, the authors compare the change in customer behavior before and after the DBA between a treatment group (customers whose information is breached) and a control group (customers whose information is not breached) using the difference-in-differences modeling framework. They find that although the **data** breach results in a significant decrease in customer spending, customers of the firm migrate from the breached to the unbreached channels of the retailer. The findings further reflect that customers with a higher retailer patronage are more forgiving because the negative effects of the DBA are lower for customers with a higher level of patronage. The authors propose and empirically test for the role of customer **data** vulnerability as the behavioral mechanism that drives customer behavior subsequent to a DBA. The authors offer prescriptions for managers on how to engage with customers following DBAs.

In this study, the authors assess the effects of a **data** breach announcement (DBA) by a multichannel retailer on customer behavior. They exploit a natural experiment and use individual customer transaction **data** from the retailer to conduct a detailed and systematic empirical examination of the effects of a DBA on customer spending and channel migration behavior. To identify the effects, the authors compare the change in customer behavior before and after the DBA between a treatment group (customers whose information is breached) and a control group (customers whose information is not breached) using the difference-in-differences modeling framework. They find that although the **data** breach results in a significant decrease in customer spending, customers of the firm migrate from the breached to the unbreached channels of the retailer. The findings further reflect that customers with a higher retailer patronage are more forgiving because the negative effects of the DBA are lower for customers with a higher level of patronage. The authors propose and empirically test for the role of customer **data** vulnerability as the behavioral mechanism that drives customer behavior subsequent to a DBA. The authors offer prescriptions for managers on how to engage with customers following DBAs.

In his first major television interview, the former director of the Federal Bureau of Investigation noted, "There's only two types of corporations—big corporations—in America. There are those who've been hacked ... and those who don't know they've been hacked" (Roberts 2014). Cybercrimes related to **data** breaches have exploded in recent years, and more and more businesses—ranging from health and retail (e.g., Anthem, Target) to the financial sector (e.g., JPMorgan Chase)—have reported **data** breach incidents (Abelson and Goldstein 2015). In 2017, one of the nation's three major credit reporting agencies, Equifax, reported a **data** breach that could potentially affect the personal information of 143 million consumers (Janofsky 2017). The economic impact of **data** breach events for business entities could be staggering. According to estimates from the Center for Strategic and International Studies, cyber security issues could lead to a loss of \$445 billion and 200,000 jobs for businesses annually (Intel Security-McAfee 2014). In 2014, Target Corporation's chief executive officer resigned in the aftermath of the retailer's massive **data** breach during the
